<sup>+</sup>University international research collaboration is measured by the proportion of total publications at each institution during the period 2008-2012 that were co-authored with researchers outside of Canada.

\*Universities with a medical school (excluding Lakehead and Laurentian Universities).

Notes:

1. Based on universities on the 2014 Top 50 Research Universities list and had a total of 250 or more publications over the 5-year period.
2. Publication data were obtained from Observatoire des sciences et des technologies' (OST) Canadian bibliometric database which contains data from the SCI-Expanded, SSCI and AHCI databases of Thomson Reuters.
3. Apparent ties may be due to rounding.
